Recognition of the Italian Powerlifting Federation

Dear President Mr. Petrucci, dear Secretary General Mr. Pagnozzi,

First I want to introduce myself. My name is Detlev Albrings and I am the President of the International Powerlifting Federation (IPF).

The IPF was founded on 1972 and is a member of SportAccord (former General Association of International Sports Federations (GAISF), founder member of the International World Games Association (IWGA) and the only stakeholder for Powerlifting at the World Anti-Doping Agency (WADA).

At the moment the IPF is in the process for recognition of the International Olympic Committee (IOC).

The Italian Powerlifting Federation is the affiliated member federation of the IPF.

In Italy the sole Federation recognised by the IPF is the Italian Powerlifting Federation with Mr. Sandro Rossi as President of the Italian Federation.

It will be very helpful if the Comitato Olimpico Nazionale Italiano will recognise the Italian Powerlifting Federation as a member of CONI.

If you need more information about the IPF, please do not hesitate to contact me.

Sincerely yours,

Detlev Albrings
President IPF
